

PRE-CONGRESS WORKSHOP 3: ACUTE KIDNEY INJURY (AKI)
VENUE: HOSPITAL TUNKU AZIZAH, KL
THURSDAY, 26TH SEP 2024

INTRODUCTION: AKI is common in paediatric practice. Appropriate kidney support (dialysis) would allow time for the child to be treated for their underlying pathology and saves life.

OBJECTIVES:

- Recognise child at risk of AKI
- Optimise medical support & offer timely peritoneal dialysis
- Rehabilitate AKI survivors

TARGET PARTICIPANTS: 50 Paediatricians / Paediatric Mos / Senior Paeds Nurses
